OCCUPATIONAL SAFETY & HEALTH POLICY

Sime Darby Plantation is committed to providing and maintaining a safe and healthy working environment as well as preventing injury and ill health of its employees, contractors and visitors by practising effective management.

In line with this Policy, Sime Darby Plantation shall:

• Comply with the current legal and other related and applicable requirements, regulations, approved codes of practice, standards and guidelines in countries we operate
• Establish Occupational Safety and Health Management System at all operating units
• Formulate, establish, communicate, implement and maintain safe systems at work
• Provide employees with adequate knowledge, training and experience to ensure competency in performing their tasks
• Ensure continuous improvements in the Occupational Safety and Health Management and its performance

• The Management is committed to its obligations, as far as practicable, to prevent occupational accidents and promote a harmonious, safe and healthy working environment for all its employees. Every employee, contract worker and visitor is responsible for their safety and health while they are within the company’s premises and every employee and worker must strive to prevent injury to fellow workers and protect the assets of the company.
